

## **National Student Loan Data System (NSLDS)**

When a borrower receives a Federal loan or a Pell grant, the information must be submitted to the National Student Loan Data System (NSLDS). Information in NSLDS is accessible to schools, lenders, and guarantors that are authorized users of the data system. Students are also able to log in and access all of their federal loan and Pell grant information. Students will need to have their FSA ID in order to access their information.

You can access this website at [www.nsls.ed.gov](http://www.nsls.ed.gov) to view your information at any time.
