POLICY ON REPORTING THE ANNUAL DISCLOSURE OF CRIME STATISTICS

The institution places great emphasis on the safety and security of our campus. Many employees are dedicated to making our campus locations a safer place to work and study. A safe environment supports learning and instruction. Beckfield College encourages all members of its community to promote safety and wellness by adhering to all security protocols and reporting any violations promptly.

To comply with the Jeanne Clery Disclosure of Campus Security Policy, Crime Statistics Act and the Michael Minger Act. This report is prepared by the Office of Compliance with data collected from local law enforcement agencies, internal incident reports, and local fire departments. The information included in the Annual Safety and Security Report provides crime statistics, evacuation procedures, campus security authorities, and fire alarm testing dates.

Background

This policy serves to meet the college's compliance obligation under the "Jeanne Clery Disclosure of Campus Security Policy, Campus Crime Statistics Act of 1998" (commonly referred to as the "Clery Act"), and the Michael Minger Act of 2000. This policy is intended to govern the preparation, publication, and distribution of the Annual Safety and Security Report, and ensure that all elements of the process are carried out in a manner that meets federal regulations.

The **Clery Act** requires institutions of higher education receiving Title IV federal financial aid to report specified crime statistics on college campuses and areas within the same reasonably contiguous geographic area of college campuses, and to provide other safety and crime information to members of the campus community. The **Violence Against Women Reauthorization Act** of 2013 ("VAWA"), mandates additional requirements as to how colleges and universities are to provide information to the students, faculty, staff, prospective students and employees, and visitors.

The **Michael Minger Act** requires institutions of higher education report all fires (intentional & accidental) immediately to the state fire marshal, who has jurisdiction over all fires and fire scenes. "Immediately" means before the last fire unit has left the scene and no later than 2 hours after the incident. No fire scene can be cleared without authorization from the state fire marshal.

SCOPE OF CLERY AND MINGER COMPLIANCE POLICY

It is the policy of Beckfield College to comply with the Clery Act. Compliance with the Clery Act requires a joint effort between the Campus Security Authorities and the administration of the institution.

Supervisors assigned areas of responsibility in the following policy sections are expected to be familiar with the Department of Education's Handbook for Campus Safety and Security that are relevant to their responsibilities and will be provided training annually and/or upon request by contacting the Compliance Office.

This policy covers reports and complaints of a criminal nature, including sexual offenses. As such, this policy applies to situations in which either party is a Beckfield student, Beckfield employee, a third party (for purposes of this policy, a third party is anyone who visits Beckfield's campuses or participates in a college program or activity) or anyone within the College's Clery geography. Further, the policy provides information for prospective students and employees.

In the event that an allegation arises involving college faculty or staff, the College will apply the disciplinary measures and grievance policies and procedures as set forth in the college's HR policies or the appropriate collective bargaining agreement to which the employee is subject. In all circumstances, the College provides a disciplinary proceeding that is a prompt, fair, and impartial process. Both Complainant and Respondent may have the advisor of their choice at all times during the process and procedures.

The **Minger Act** requires that campuses disclose if dorms are equipped with automatic fire suppression systems*. Deliberate violations of these requirements result in civil fines. All incidents must be recorded. The log must be kept open for inspection. Information may be withheld if necessary to protect ongoing investigations where the subjects may flee. Students must be notified of the availability of the crime log. The crime log must be available on campus networks. Institutions have a duty to notify the campus community of a crime that represents a threat to safety and security (via a special report). Notice may be given in a number of ways.

Institutions have a duty to provide students and the CPE with their policy on special reports.

*Please note that Beckfield College does not have on campus or off-campus housing provided to students, faculty, or staff.

Withholding Information of a Crime

Crime information will be withheld if there is clear and convincing evidence that the release of information about the crime would cause a suspect to flee or evade detection, would result in the destruction of evidence, or is prohibited by law. Information may be withheld until it has been determined that damage from the release of the information is no longer likely to occur.

HOW TO PREVENT CRIMES

General

1. Be aware! Recognize your vulnerability.
2. Report all suspicious persons, vehicles and activities.
3. Use the "buddy system" and watch out for your neighbor.
4. Keep your doors locked whenever you find yourself alone in a building.
5. Report lights that are out and any hazardous conditions immediately to the Facilities Office at 859-371-9393.
6. If you see someone being victimized, get involved and notify a Campus Security Authority representative.

Walking

1. Avoid traveling alone at night.
2. Confine walking to well-lit, regular traveled walks and pathways. Avoid shortcuts and keep away from shrubbery, bushes, alleyways, or any other areas where an assailant might be lurking.
3. Do not accept rides from casual acquaintances.
4. When walking to your vehicle or residence, have your keys ready in hand.
5. When being dropped off by taxi or private vehicle, ask the driver to wait until you get inside.
6. If threatened by an approaching vehicle, run in the opposite direction. The vehicle will have to turn around in order to pursue you.
7. When getting out of a car, take a look around to make sure that you are not being followed.
8. If you think you are being followed, cross the street and, if necessary, keep crossing back and forth. If you are pursued, call for help and run to a campus building, business, residence, enlist the aid of a passerby, flag down a passing motorist, or as a last resort pull a fire alarm. Do anything that might attract attention or summon assistance. If you are walking alone and someone passes you, check to be sure that person has continued walking in the other direction.
9. If you find yourself confronted by an assailant you must remember that while screaming and struggling may in some instances frighten off the assailant, in other instances you may further antagonize the assailant and bring forth a more violent reaction. Above all you must keep your head and assess the situation before choosing your course of action. Whether or not the assailant is armed or has made threats against your life should be a determining factor in your decision. The key word in this type of situation is survival.

Driving

1. Do not pick up hitchhikers.
2. Whenever possible, limit traveling to well-lit, well-traveled roads.
3. Keep your windows closed and doors locked.
4. When stopped at traffic lights or stop signs, keep your vehicle in gear. If threatened, sound your horn and drive away as soon as possible.
5. Consider installing an alarm system with a panic switch.
6. Avoid stopping in poorly lit, out-of-the-way places.
7. If your vehicle breaks down, signal for assistance by raising the hood and by tying a white handkerchief to the radio antenna or door handle. Stay inside your vehicle with the windows closed and the doors locked. If a roadside Samaritan stops, roll down your window just enough to talk and ask that he/she call the police. If the person appears to be a threat, sound the horn and flash your lights.

Driving (cont.)

8. If you think you are being followed, keep out of isolated areas. Look for a place where there are people, then stop and let the vehicle pass you.
9. If the vehicle continues to follow, drive to the nearest location where you can get assistance, i.e., gas stations, shopping centers, police or fire station, etc.
10. If you are followed into your driveway or parking lot, stay locked inside your vehicle until you can identify the occupants of the vehicle. If threatened, sound your horn until you attract attention or the vehicle leaves.
11. When parking at night, choose well-lit areas. Before getting out of your vehicle, check for people loitering. Always remove your ignition keys. Lock the vehicle whenever it is unattended.
12. Before entering your vehicle, always check the interior, paying particular attention to the floor and rear seat.

Offices and Laboratories

1. Keep all offices and laboratories locked when not in use.
2. Make sure that all locking devices are in proper working order.
3. Utilize a key control system. All department keys should be signed out and collected when not in use. Keys should be issued only when absolutely necessary.
4. Do not label keys with their use. Use a code system instead.
5. Keep desks, cabinets, etc., locked when not in use.
6. Typewriters and other portable office machines should be bolted or locked down. Smaller items, such as calculators, tape recorders, etc., should be kept locked up when not in use.
7. Avoid bringing valuable personal property with you.
8. Petty cash should be kept to a minimum.
9. Purses should be kept locked up, and coats or jackets should not be left unattended with wallets or other valuables in the pockets.
10. Before leaving, check to make sure that no one is hiding and that your area is properly secure.
11. Watch out for your neighbor. If someone forgets to secure his/her area or property, keep an eye on it.
12. Report all suspicious persons or improperly secured areas to Front Desk/Campus Safety immediately.

Only in occasional instances of high alert, a security guard may be secured to patrol the campus and parking lots. Additionally, Beckfield displays informational posters in several locations on each campus indicating how to respond to dangerous situations.

RAPE/SEXUAL ASSAULT

The College has established a prescribed procedure to assist and support victims of rape or sexual assaults. The Director of Student Services and Persistence or any other member of the Campus Security Authority will assist you in obtaining medical, counseling, and police services.

You are encouraged to report immediately any incidents of this nature by dialing 911. Keep in mind that an assailant who is allowed to go free is a potential future danger, not only to you but also, to other members of the community.

All information that you give will be held in the strictest confidence in accordance with our own policy as well as by the General Laws of Kentucky. If you wish to report information concerning a rape or sexual assault anonymously, you may do so.

When you report a rape or sexual assault, you may choose to file charges through the District Attorney's office or not at all. If you choose to file charges, the Director of Student Services and Persistence/or any other member of the Campus Security Authority will assist you in every way, but no action will be taken without your expressed consent.

Every situation will be different. Therefore, we cannot provide any specific rules as to what to do or not to do if you are faced with a threat. Only you can make the determination as to the appropriate course of action.

If you think you are being followed, you can call out for assistance and run to a lighted building or residence; enlist the assistance of a passerby or flag down a passing vehicle, break a window in a building or residence or pull a fire alarm. Do anything that might attract attention or summon assistance.

If you find yourself confronted by an assailant you must remember that, while screaming and struggling may in some instances frighten off an assailant, in other instances such action may further antagonize an assailant and bring forth a more violent action.

There are many services available to victims of rape and sexual assault, and you are encouraged to use all support services.

Special Reports of a Crime & Enforcement Procedures

A special crime report will be made to the campuses when any crime reported to the Campus Security Authority personnel presents a safety or security threat to students or employees in accordance with *timely warnings*. The special crime report will be made in a manner that will aid in the prevention of similar occurrences and will be made within twenty-four (24) hours of the incident report to the Campus Security Authority. A campus-wide e-mail will be used as well as posting fliers on each building's bulletin board. Faculty will be asked to notify students in their classes as well.

POLICIES ON CAMPUS: SEXUAL ASSAULT

It is the policy of Beckfield College that all forms of sexual assault are unacceptable, and we strongly support efforts to eliminate its occurrence and discipline offenders. The College expects all employees and students to treat each person with dignity and respect. If any student or employee has been sexually assaulted or has knowledge of rape or any other forcible or non-forcible sexual offense, the College urges that person to report the crime to the College's Office of Accreditation and Compliance 859-371-9393 and/or local law enforcement. Institutional personnel will assist the student in notifying local/state authorities if the student or employee requests assistance.

It is important for any victim of sexual assault to seek medical treatment at a hospital emergency room as soon as possible. During the exam, the doctor will collect evidence. Sexual assault victims who shower, bathe, and/or douche prior to the exam will decrease the chance of collecting evidence, as does delaying the hospital visit.

A hospital visit is highly recommended, a sexual assault victim may seek counseling and support services through the Women's Crisis Center (859) 491-3335. The address is 111 East Third Street, Maysville, KY 41011. Sexual assault victims may also call the National Sexual Assault Hotline at 800-656-HOPE to be connected with a trained staff member from a sexual assault service provider in your area.

Calling the National Sexual Assault Hotline gives you access to a range of free services including:

- Confidential support from a trained staff member
- Support finding a local health facility that is trained to care for survivors of sexual assault and offers services like sexual assault forensic exams
- Someone to help you talk through what happened
- Local resources that can assist with your next steps toward healing and recovery
- Referrals for long term support in your area
- Information about the laws in your community
- Basic information about medical concerns

The National Sexual Assault Hotline is a safe, confidential service. When you call the hotline, only the first six numbers of the phone number are used to route the call, and your complete phone number is never stored in our system. Most states do have laws that require local staff to contact authorities in certain situations, like if there is a child or vulnerable adult who is in danger.

While almost all callers are connected directly to a staff member or volunteer at a local sexual assault service provider, a handful of providers use an answering service after daytime business hours. This service helps manage the flow of calls. If all staff members are busy, you may choose to leave a phone number with the answering service. In this case, the number will be confidential and will be given directly to the organization's staff member for a callback. If you reach an answering service, you can try calling back after some time has passed, or you can choose to call during regular business hours when more staff members are available. You can also access 24/7 help online by visiting online.rainn.org.

In handling alleged sexual assault offenses, the College will enforce its disciplinary policy and procedure. In its pursuit of investigating the alleged sexual offense, both the accuser and the accused have the same rights to have others present during disciplinary proceedings, and both the accuser and the accused will be informed of the outcome of any disciplinary proceeding.

The College uses several methods to screen student and employee applicants for sex offenses, including the sex offender registry. Students or employees may locate the Kentucky Offender Registry to locate registered sex offenders in Kentucky by visiting <http://kpsor.state.ky.us/>.

PROGRAMS TO PREVENT DATING VIOLENCE, DOMESTIC VIOLENCE, SEXUAL ASSAULT AND STALKING

The College strongly objects to any violence and has implemented programs to educate students on dating and domestic violence, sexual assault and stalking awareness. During the month of October, the College hosts informational sessions on these topics. The College does a variety of events which usually includes guest speakers, handouts, activities, and more involving these topics. Students are encouraged to contact their local law enforcement agency to report any acts of violence. Incoming students and new employees will receive a copy of this publication along with an invitation to attend one of our on-campus events. If a student reports violence of any kind, the College will report it to the Director of Accreditation & Compliance and the College President who then may report the issue to local law enforcement.

The College believes in the importance of preserving evidence that may assist in proving that the alleged criminal offense occurred or may be helpful in obtaining a protection order. Any victim of sexual assault may take the following options:

- Notify proper law enforcement authorities, including on-campus and local police;
- Be assisted by campus authorities in notifying law enforcement authorities if the victim so chooses; and
- Decline to notify such authorities.

The College will honor all orders of protection or similar lawful orders in an effort to protect employees and students. The College will protect the confidentiality of victims and other necessary parties, and will complete publicly available recordkeeping, while maintaining as confidential any accommodations or protective measures provided to the victim. The College will provide written notification to student and employees about existing counseling, health, advocacy, and other services available for victims, both within the College and in the community. The College will notify victims about options for requests for changes to academic, living, transportation, and working situations or protective measures.

POLICIES ON DRUG AND ALCOHOL USE

The College will take appropriate disciplinary action, up to and including dismissal, against an employee or student found to be in violation of the alcohol and drug policy.

An employee who violates the College's alcohol and drug policies will be subject to disciplinary action, which may include termination.

POLICIES AND PROCEDURES ON EMERGENCY RESPONSE AND EVACUATION

Beckfield College places great emphasis on the safety of its employees and students. It is the goal of the institution to immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on the campus. In the event of a campus emergency, students and employees will be notified via email, college website, learning management system, and through designated security authorities. Text messages may also be utilized.

The College will work with local authorities and emergency personnel to confirm that there is a significant emergency or dangerous situation. Timely warnings will be sent to all students and employees who the College and/or local authorities have deemed at-risk. The College will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. The College adheres to timely warnings and will issue a timely warning for any Clery Act crime that represents an ongoing threat to the safety of students or employees; and issue an emergency notification upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on-campus.

In the event of an emergency, the following title of persons will be designated to assist and provide information:

- College President
- Director of Accreditation and Compliance
- Director of Admissions
- Director of Student Services and Persistence
- Facilities Supervisor
- Human Resources Director
- Program Directors and Deans

The College will work with local authorities to determine the segments of the campus community to receive notification. If during this procedure it is determined that emergency impacts the larger community, the College will work with local authorities to send the appropriate communication.

Beckfield College will test its emergency response and evacuation procedures on an annual basis. Students and employees will receive an alert from one of the designated individuals above and will be expected to follow emergency and/or evacuation procedures. One of the designated campus security authorities will document the description of the exercise, the date, time and whether it was announced or unannounced.

Emergency Evacuation Procedure

In the event of a fire, tornado, severe weather, or other similar emergency, the buildings may be evacuated for safety. If this occurs during in-class time, instructors need to take their daily attendance/roll sheet with them to the evacuation area and take roll once your class is lined up outside.

Department heads should note the location of their employees before the evacuation, then take attendance in the evacuation area once outside.

All faculty, staff, and employees should familiarize themselves with the posted evacuation maps and emergency guidelines located in every room on campus. If the evacuation maps are not in your room, please contact the Vice President of Accreditation, Compliance and Student Services at 859-371-9393.

Your department/class should meet at a single point outside the building. This is recommended to help ensure everyone is accounted for and have made it safely out of the building.

When a fire alarm sounds you should:

- Walk quickly to the nearest available exit that can be reached safely. Alert others to do the same and, with their permission, help persons requiring assistance.
- Lead your class/department to a single location.
- Go to the nearest evacuation area. (see Emergency Evacuation Areas)
- Do not re-enter a building until directed by fire/rescue, a Security officer, or a clearly identified member of the Campus Team.
- Do not allow students to leave campus during the evacuation. You must take roll again upon re-entry to the room.
- If severe weather or a tornado is the reason for the evacuation, please report to the shelter sites designated on the evacuation maps located in each room.

Beckfield College conducts regular drills for your safety and to make sure in the event of an emergency, everyone knows what to do.
